```

A screenshot of a Jupyter Notebook interface. The top bar shows 'Untitled1.ipynb' and various icons. The left sidebar has icons for file explorer, search, and other functions. The main area displays Python code for a chatbot named 'AgriBuddy'. The code uses a series of if-elif-else statements to respond to different topics: equipment, market prices, government schemes, help, and unknown messages. The code is as follows:

```
# Equipment topic
elif "equipment" in user_input:
    print("AgriBuddy: Farming equipment can be rented or shared.")
    print("AgriBuddy: to reduce the cost of purchasing machinery.")

# Market price topic
elif "market" in user_input or "price" in user_input:
    print("AgriBuddy: Market prices can help farmers decide")
    print("AgriBuddy: where and when to sell their crops.")

# Government scheme topic
elif "scheme" in user_input or "government" in user_input:
    print("AgriBuddy: Government schemes may provide support")
    print("AgriBuddy: to eligible farmers.")
    print("AgriBuddy: Always check the official scheme information.")

# Help option
elif "help" in user_input:
    print("AgriBuddy: You can ask me about:")
    print("AgriBuddy: weather, crops, fertilizer, equipment,")
    print("AgriBuddy: market prices or government schemes.")

# Unknown message
else:
    print("AgriBuddy: Sorry", name + ", I didn't understand that.")
    print("AgriBuddy: Try asking about weather, crops, fertilizer,")
    print("AgriBuddy: equipment, market prices or government schemes.")

...
Welcome to AgriBuddy!
Your simple farming information assistant.
```

The bottom status bar shows 'Variables', 'Terminal', '7:14 PM', and 'Python 3'.

OUTPUT:

👋 Welcome to AgriBuddy!

Your simple farming information assistant.

What is your name? Sindhu

Hello Sindhu! 🤝

I can help you with:

1. Weather
2. Crops
3. Fertilizer
4. Equipment
5. Market prices
6. Government schemes

Type 'bye' or 'exit' to leave.

You: weather

AgriBuddy: Weather information is important for farming.

AgriBuddy: Check rainfall and temperature before planning

AgriBuddy: important farming activities.

You: crop

AgriBuddy: Crop selection depends on factors such as

AgriBuddy: soil condition, water availability and climate.

You: fertilizer

AgriBuddy: Fertilizer decisions should consider

AgriBuddy: the crop and soil nutrient requirements.

AgriBuddy: Avoid applying fertilizer without checking the need.

You: equipment

AgriBuddy: Farming equipment can be rented or shared

AgriBuddy: to reduce the cost of purchasing machinery.

You: market prices

AgriBuddy: Market prices can help farmers decide

AgriBuddy: where and when to sell their crops.

You: bye

AgriBuddy: Goodbye Sindhu! 🌿

AgriBuddy: Happy farming!
